Experience

Graphic Designer - Innovative Technology Ltd

July 2016 – Present

My role involves designing and creating a broad range of printed and online material for worldwide exhibitions, sales literature, marketing campaigns, advertisements, and content for the company website and social media channels.

Studio Designer - Maplin Electronics Ltd

June 2014 – July 2016

Working at the Head Office within the Marketing team, my role involved creating all of Maplin's printed materials. This included monthly promotional leaflets, national press advertisements, POS, packaging, catalogues, logo design and direct mail pieces. Other aspects of the role included photography, video work and image editing.

Web Designer - Collabco

September 2013 – March 2014

I worked remotely for Collabco whilst studying in my final year of university. I worked on the company's website, producing web banners, HTML emails, landing pages and vector graphics. In addition, I created white papers, brochures and promotional materials to develop the branding and marketing of their main product, MyDay.

Digital Media Support (Placement) - Barnsley College

August 2012 – September 2013

I assisted members of staff with the college's Virtual Learning Environment (Moodle), providing training and support. Also, as Digital Media Support, I created posters, websites, logos, banners and videos to help promote activities within the college.
